WILL DISCUSS RACE CONGRESS,

The regular Sunday afternoon meeting, 4 o'clock, at the Frederick Douglass Center on the 10th will be of unusual interest. The topic of discussion will be the Race Congress held in London last July, which has been far too inadequately reported in the press of this country. Certain visitors who were present at the Congress will be present and will give an account of its most interesting proceedings. The musical program is also attractive. Miss Zenobia Taylor will render the first and third movements of the Sonata Pathetique by Beethoven. All are cordially invited to be present.
