

28) Discrete Unit of Will Required to Re-Cognize Truth?

Mea culpa, no other or institution is accountable for this student work. The Medium boundary between time⇌space requires distinct quanta of qualium to be penetrated.

“O SON OF LIGHT! Forget all save Me and commune with My spirit. This is of the essence of My command, therefore turn unto it. ~Bahá'u'lláh

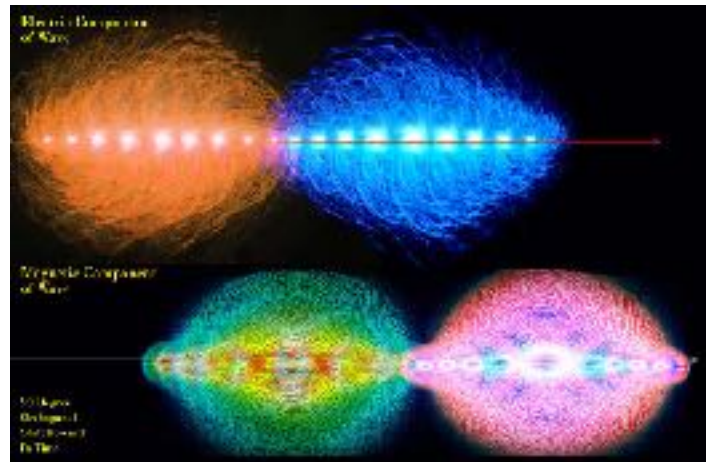

So how does it look when a photon, as the negative electric field portion in space of an electromagnetic wave, folds up into itself, and fold out into time as the positive magnetic portion? It does not look like a bird sphere folding-up and unfolding.

So the photon like us has two aspects, inner and outer being. All phenomenon manifests this relation by the alif boundary. As the photon- *augments* in space and as the alter inner reality photon+ *diminishes* in time. There is a discrete quanta of Primal Will to pass, penetrate, through the barrier boundary *equilibrium* medium between time⇌space.

Planck's constant reflects this quanta, as an *accent*, a hidden constant exposing deeper meaning.

This image from **2) Truth, Light, and Conscious** is a better virtual visual of a photon passing from space to time and back again.

The photon like the Arche electron inverts itself; it turns inside out. It moves from being in space to being in time. This Möbius flip where the outside meets the inside where the beginning meets the end. A circular slide rule is an analogy, one of those symbols manifesting mystery. We have knowledge and symbols for it, but it is one of the divine realities that occurs between the physical world and the divine, spiritual, abstract, mental, intellectual, emotional, mathematical, continuous reality.

Human's must pass conscious focus as accent/ ascent between inner world and outer world frequently. The accent/ascent the emphasis of focus which world (space/time, outer/inner) is related to the energy of photon and the spirit, intension and intensity, of the soul.

Spend some time with an autistic child or even an adult. They can teach us about ourselves. The shift need to speak of yourself, to hear the world speaking to you personally requires barrier penetration. It substantiates the flow outward to inward. As if to move from one perspective to another. Apparently, re-cognizing truth requires a similar barrier penetration. To see the other as yourself is the same shift. The Jinn, the virtue, the

emotion needed is a discreet, distinct, quanta required. It is apparently a single pure hearted deed. One discreet distinct qualium is required. One good deed moves the light of your being toward becoming your true self. Light is propelled by the interplay of time⇌space linked by

permittivity⇌permeability a back and forth cosmic dance. The light knows the path and destination. It chooses to do so. You can dance between your inner world and outer world. You are permitted to follow after truth. As you do it will permeate all of your conscious. You have such possibility.

Be thankful to God for having enabled you to recognise His Cause. Whoever has received this blessing must, prior to his acceptance, have performed some deed which though he himself was unaware of its character, was ordained by God as a means whereby he has been guided to find and embrace the Truth. As to those who have remained deprived of such blessing, their acts alone have hindered them from recognising the truth of this Revelation. ~Bahá'u'lláh

Mind as light, reason as light in the darkness of bewildering emotions, love as light as the magnetic permeation charged by the electric attraction, knowledge as light, light upon light as truth on our mind.

O SON OF BEING! With the hands of power I made thee and with the fingers of strength I created thee; and within thee have I placed the essence of My light. Be thou content with it and seek naught else, for My work is perfect and My command is binding. Question it not, nor have a doubt thereof. ~Baha'u'llah

This student perceives it is personally necessary to re-cognize the reality of the Manifestation every day. Bahá'u'lláh in His great kindness provided the words that allow for a succinct testimony of that recognition in the short obligatory prayer. This perception is born of the command to pray *qada día*. Obedience creates insight, light, after a lifetime the reason breathing is good, with mindful reflection, becomes apparent. Some of us have that as innate knowledge from birth. Pray you do.

Short Obligatory Prayer:

I bear witness, O my God, that Thou hast created me to know Thee and to worship Thee. I testify, at this moment, to my powerlessness and to Thy might, to my poverty and to Thy wealth. There is none other God but Thee, the Help in Peril, the Self-Subsisting. ~Bahá'u'lláh

To punch a physical particle from the arena of space, a physical existence, into time, a non-physical existence, is similar to the discreet packet of spiritual energy, contained in a good deed that allows us to leave the realm of self and enter (re-cognize) the realm of the Manifestation.

Elderly Bahá'í student,

The return of a creature thought to be extinct. It is a good metaphor. Do we now convert metaphor to analogy as your love of God is a characteristics of your soul, thought to be extinct, we can unfold once again.
